

AUSTRALASIAN GROUNDWATER CONFERENCE

GROUNDWATER FUTURES SCIENCE TO PRACTICE
11-13TH JULY 2017 UNSW, SYDNEY

Panellist: Social License to Operate

Professor Jim Underschultz

Professorial Chair of Petroleum Hydrodynamics - University of Queensland

Jim is currently Professorial Chair of Petroleum Hydrodynamics at the University of Queensland with the Centre for Coal Seam Gas and CI of the UQ Deep Aquifer Appraisal CCS Project. Previously, Jim was General Manager Science for ANLEC R&D that funded science projects in support of Australia's CCS Flagship projects. He was CSIRO Theme Leader for the Unconventional Petroleum and Geothermal Energy R&D and he managed the hydrodynamics and geochemistry discipline group within the Australian Cooperative Research Centre on CO₂ (CO₂CRC). In Canada Jim worked for the Alberta Research Council on deep waste water injection. Jim has a research interest in fault and top seal characterisation and has worked on MM&V for a number of operational CCS projects including SECARB Cranfield, Otway, Frio and In Salah.
