STUDY GROUNDWATER HYDROLOGY AT FLINDERS IN 2020

Get future ready and take the next step in your career.

The National Centre for Groundwater Research and Training offers Australia's only face-to-face Australian Groundwater School (AGS) topic as a professional development course.

If you've completed the AGS topic, you have the opportunity to undertake an assessment pack to gain credit to transfer into a postgraduate course at Flinders University, reducing the time required to gain one of the following qualifications:

- **Graduate Certificate in Science (Groundwater Hydrology)**
- **Graduate Diploma in Science (Groundwater Hydrology)**
- **Master of Science (Groundwater Hydrology)**
